SUMMARY

Full-Stack Developer with an extensive work history in a variety of client facing roles for a financial services firm specializing in investment analytics. Combining a decisive, analytical mind with an expanding technical skill-set, I look forward to any challenge that will solve an organization's evolving issues, while remaining an advocate for the end-user experience.

TECHNICAL SKILLS

AJAX, API, Bootstrap, Bulma, Bash, CSS, Context API, Databases, Declarative Programming, ES6, Express.js, Git, GitHub, Heroku, HTML5, IndexDB, Javascript, Jquery, JSON, JSX, MongoDB, Mongoose ODM, MySQL, Node.js, Object-oriented Programming (OOP), ORM, Passport, Postman, Problem-Solving, Python, React, Rest API, Sequelize, SQL, Testing

PROJECTS

StudyBuddy | https://github.com/davisbradleyj/P3-Study-Buddy | https://safe-peak-24611.herokuapp.com/
StudyBuddy allows students to form study groups for their specific coursework
- Collaborated as a team of two developers to execute full lifecycle web development of application in two weeks
- Personally created front-end with well-designed, testable, efficient code using React, CSS and HTML
- Managed Code review in Github, and spearhead creation of documentation and presentation materials
- Highlighted Technology: React, Sequelize, Express, Node, HTML, CSS, JavaScript, Bootstrap, Axios, Passport

What Do You Meme | https://github.com/davisbradleyj/click-game | https://bd-meme-game.herokuapp.com/
This web application is a React-based memory game
- Completed over the course of 3 days, this application was a first attempt as a solo endeavor to create a React app.
- Incorporate component state management to respond to user events
- Highlighted Technology: React, JSX, Express, Node, HTML, CSS, JavaScript, jQuery

BATMaN | https://github.com/davisbradleyj/ucb-batman | http://ucb-batman.herokuapp.com/
BATMaN assists outdoor enthusiasts to build communities and find new adventures
- Work within a team of four developers to test and debug a responsive app in one week build
- Responsible for implementing user authentication on deployed site, and materials for presentation of project and lifecycle
- Oversee dev team workflow by leading daily stand-ups, setting goals and feature deadlines, and managing Trello board
- Highlighted Technology: Express, Node, HTML, CSS, JavaScript, jQuery, Bootstrap, AJAX, Passport
